

The Digital SAT

Recommended Testing Timeline for Class of 2025

Dear Class of 2025 families,

As you may know, the PSAT and SAT are going digital! These changes will directly affect the graduating class of 2025 (and younger). The Digital PSAT will debut in fall of 2023 and The Digital SAT will first be offered in Spring of 2024. This email outlines our recommended testing and preparation timeline for the class of 2025 for optimal score outcomes.

In light of the new testing changes, we recommend current sophomores/rising juniors plan to sit for a pencil-and-paper SAT in the fall of 2023, before it goes away. Fall 2023 pencil-and-paper SAT testing opportunities are as follows:

August 2023

October 2023

November 2023

December 2023

Recommended Testing Timeline for Class of 2025

Summer 2023

Make the most of your summer! Take advantage of your free time this summer and get a SAT score under your belt before junior year! You don't have to wait for the new Digital SAT (and the uncertainties that come with it) to roll out before you get scores you're proud of. Sit for a test you're familiar with and get scores you can feel confident submitting with your college applications.

Fall 2023

After coming through the SAT class and sitting for the August SAT, class of 2025 students should then come through our digital PSAT classes (leading up to the digital PSAT in October). As always, MTAT students receive [unlimited return privileges](#) to classes within the same program. Once a student has come through our PSAT/SAT program, they are eligible to return to future classes at no additional cost.

December 2023

October 2023 PSAT scores should be available in early December 2023. Review your Digital PSAT scores with one of our experts and we will customize a plan in preparation for spring testing. Return to our digital SAT classes for free and/or meet with a private tutor at your MTAT student rate.
